# BUILD YOUR OWN PORTFOLIO

Give yourself a professional edge with the INREV/Henley  
Certificate in Non-Listed Real Estate Investments

INREV

# Get qualified with INREV and Henley

Work towards the INREV/Henley Certificate in Non-Listed Real Estate Investments and advance your career with the only accredited professional qualification in the industry.

Based on the highly-regarded INREV training programme, this certificate in partnership with the Henley Business School at the University of Reading, gives you the flexibility to manage your professional development around your working life. We'll help you put in place the fundamental building blocks of knowledge in one of two chosen pathways. We offer you practical and relevant training on the latest trends and developments in the industry.

**If you want to give yourself the edge in a competitive industry, this is the certificate for you.**

## Follow one of two learning paths

With our qualification, you choose one of two learning paths, giving you a choice in how to tailor your progress towards the certificate.

*The INREV/Henley certificate embodies the strength and quality of our education programme, and the next step in our role as an industry-recognised provider of professional training.*

Marieke van Kamp, NN  
INREV Chairman

**1** With the **Portfolio Management** track, you learn how to assess risk and return, and develop your skills in portfolio construction and management.

**2** The **Corporate Finance** track allows you to gain an understanding of capital raising and financing for non-listed real estate, and how to evaluate investment opportunities across different products.

For each path, you need to complete five mandatory and electives courses before undertaking a final written assessment supervised by the Henley Business School within 36 months.

# Quality is assured

Quality underpins all of the INREV training courses that form the basis of our certificate programme.

Our tutors are seasoned professionals from across the European real estate industry, selected for both their experience and ability to teach theory on each topic as well as to give you latest on-the-ground insights.

*With the certificate, you can really show your knowledge and your added-value on the subject. The courses are practical and then, in combination with the business school, you are able add an academic dimension.*

Robert Wagenaar, Bouwinvest

The practical knowledge you gain is then combined with the academic rigour of the Henley Business School. It supervises the written assessment, allowing you to test your analytical, qualitative and writing skills in the final part of certificate.

Then, if you wish to take your studies further, those with the certificate can gain an exemption towards the Henley Business School MSc in Real Estate Investment and Finance.

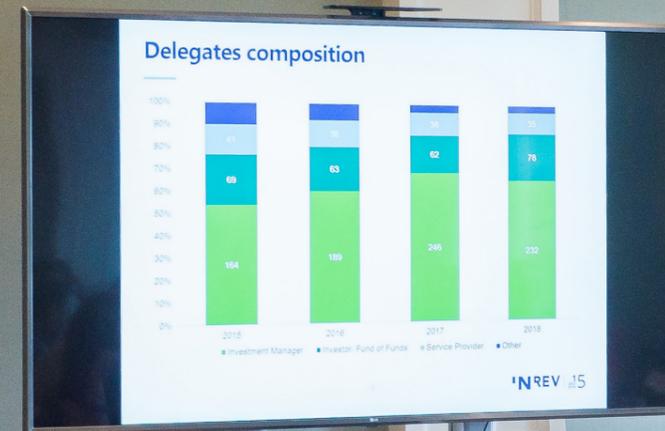

*At AXA IM – Real Assets we are committed to ensuring we not only have the best talent possible, but also that every individual on our team is given the opportunity to be the best they can be and the INREV/ Henley Certificate helps us achieve these goals'*

Isabelle Scemama, AXA IM

*The final written assessment required a broad perspective on a topic, drawing on the practical experience across the courses and connecting me back into the world of academic research and thinking.*

Manfredi Campo, Optimum

*I was able to attend courses in different locations around Europe and combine my professional training with my day-to-day business development work.*

Asher Garnett, UBS Asset Management

# To qualify for the certificate

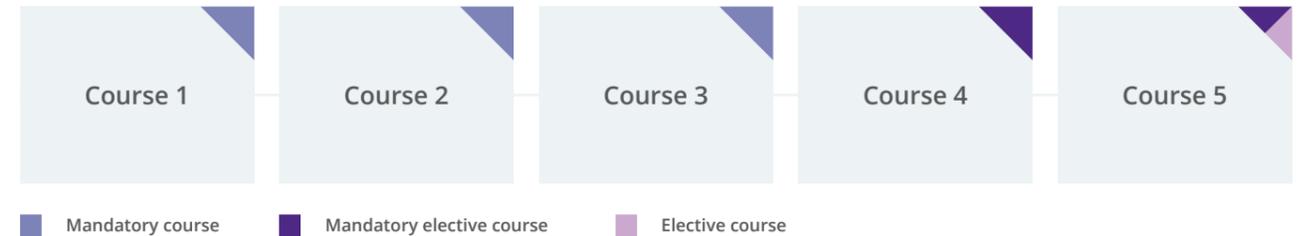

INREV

 **Henley**  
Business School  
UNIVERSITY OF READING

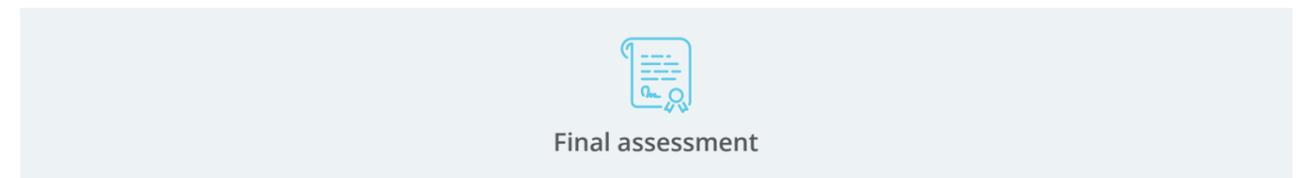

## Step 1 Choose 1 of 2 learning paths

## Step 2 Complete 5 one-day courses

## Step 3 Pass 1 assessment

# Take the next steps

Whether you want to build on your current specialist expertise or broaden your knowledge across the non-listed industry, this certificate is the smart and flexible way to enhance your career while formalising your professional development.

Our INREV training courses take place across Europe in major cities such as Amsterdam, Milan, Munich, London, Luxembourg and Stockholm.
